

LUNAR DESK

The Raven walnut frame and legs of this gently curved desk complement the patinated Molten metal drawer fronts and sides. Linear shadow gaps travel through the metal surface creating a subtle geometric contrast. The desk is shown with a Midnight leather top and Nick pull handles in polished nickel.

Cable management is accessed through a removable panel within the desk top. A narrow shelf under the desk top accommodates computer equipment.

The Lunar can be fully customised in finish and dimensions, and can also be made as a standard rectangular desk.
