

HESTON SECRETAIRE

The doors and sides of the secretaire are veneered in a rich figured walnut laid in diamonds. The bi-fold doors fold back completely against the sides. An internal desk leaf is supported by strong bronzed brass stays and covered in beautifully textured anthracite leather.

The base is in antique bronzed brass. The solid walnut handles, in our distinctive Nack design, blend beautifully with the figured walnut doors.

We make this piece in other dimensions, finishes and interior configurations, to suit a drinks, display or TV cabinet.
