

ARABESQUE TABLE

This timeless classical piece, shown in Raven walnut, has an octagonal base and an elegant curved pedestal. The willowy, flowing shape is reminiscent of a ballerina's graceful ballet pose.

The antique brass detailing accentuates the soft curve of the base and lends the piece to both classic and contemporary settings as a dining or centre table. Other metal finishes such as polished brass or satin/polished nickel are available.

Shown in 1000mm diameter, it can be made up to 1600mm diameter with the same base, or with two pedestals for a large oval or rectangular dining table.
