

ARTEMIS MIRROR

Inspired by a mid-century design, our star-shaped Artemis mirror has an antiqued mirror frame, shown here in Nebula finish with polished nickel edging and inlay.

The antiqued mirror plate on the image is Fog. Other tones of antique mirror and clear mirror are available.

Metal detailing in polished/satin nickel or polished/antique brass can edge the frame and/or the mirror, as preferred.

Dimensions can be customised.

The Apollo is hand-made in the UK by our skilled craftsmen.
