

## BROADWAY CHAIR

The chair frame is shown in Raven walnut with a curved back in burr walnut. The curved back can be customised in a variety of veneers from our collection. A further option is a fully upholstered curved back in leather from our collection, or in customer's own fabric.

The frame and legs can be made in Raven or American walnut and in Noir.

For the seat, a selection of leather from our collection is available, or we can upholster the chair with customer's own fabric or leather.
