

LINK BOOKCASE

The modular Link cabinet, produced in the UK by our highly skilled craftsmen, consists of one or multiple display and storage sections. The base storage section comprises doors or drawers; the upper section shelves for display. Open sides make it appear light and elegant.

Shelves can be in glass or other finishes, depending on span. Individual cabinets can be produced from 800 – 1350 mm wide and in bespoke heights, linked together as required. Cable management and double backs with access panels (for instance to affix a TV screen) are also offered.

The triple unit shown is veneered in Bolivar Thunder with doors and drawer fronts in antique brass gloss. Many unique cabinet pulls from our collection will suit these cabinets.
