

POLYGON UNIT

The dramatic geometry of the solid brass bands creates striking compositions. This piece is ideal for displaying books and objects or as a room divider. The Polygon can be used individually or in pairs for greater effect. A pair looks perfect either side of a fireplace.

Shown in figured walnut with antique brass banding, it is available in most of our veneers and liquid metal finishes and can also be contrasted with polished/satin nickel or polished brass.

Solid or mirrored backs and custom dimensions are available.
